Jandy®

A BOLDER, BRIGHTER LIGHT SHOW

RGBW
LAMINAR JETS

Add drama with colorful and high-reaching water arcs

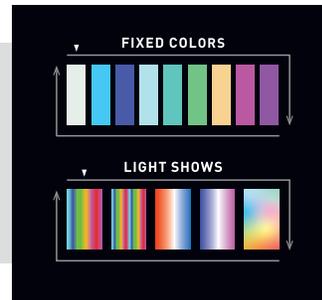

Create your own pool or spa water show using Jandy® RGBW Laminar Jets with LED lights that produce tall, stunning arcs of water illuminated by the color of your choosing. Reaching an impressive height of 7-feet, they come in nine brilliant hues and five vibrant color shows to delight family and friends.

- Built-in 12V/25W LED light module offering nine brilliant colors and five festive color shows
- Dedicated red, green, blue, and white LEDs for increased brilliance
- Enables light intensity to be adjusted
- Arcs of water up to 7 feet high and 8 feet into the pool
- Compatible with Jandy AquaLink® RS, PDA, and TCX automation systems.
- Internal flow adjustment valve conveniently located inside canister

Anytime, Anywhere Control

Turn the jets on from the comfort of your couch or while you're out -- the iAquaLink® app gives you convenient control from any mobile device.

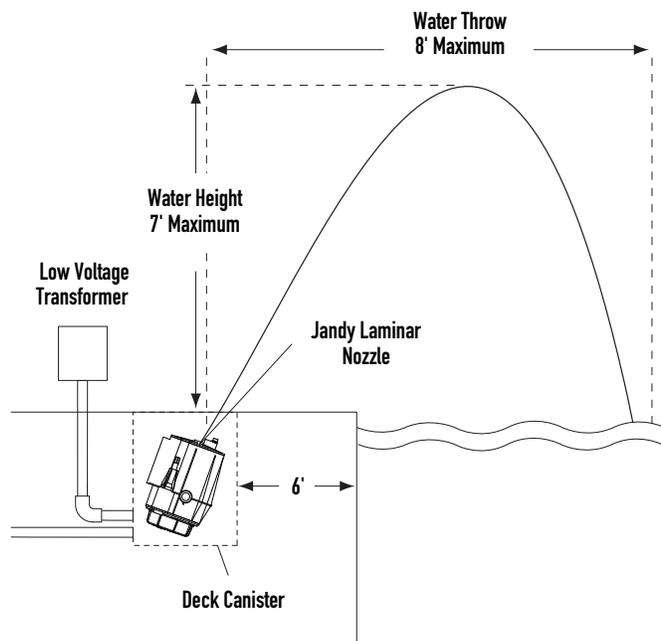

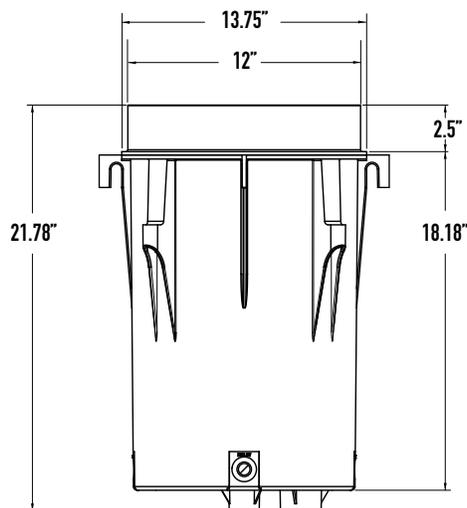

Color Choices

Built-in 12V LED light module offering nine brilliant colors and five festive color shows.
