

WARRANTY

All products manufactured by Space Age Electronics are warranted against defects in materials and workmanship for a period of one year from the date of original purchase. Space Age Electronics will repair or replace, at its option, any product returned to us by the Purchaser during the warranty period without charge provided that: (a) Space Age Electronics is promptly notified upon discovery of the defect by the Purchaser, (b) the defective product is returned to Space Age Electronics, P.O. Box 4382 Homebush South, NSW 2140, with all shipping, forwarding charges, duties insurance and taxes prepaid by the Purchaser, (c) examination of such product by Space Age Electronics discloses that such defects have not been caused by misuse, neglect, alteration, or repair, and (d) the Purchaser provides proof of original purchase date. Space Age Electronics reserves the right to discontinue particular models without notice and to make modification in design at any time without incurring obligations to make such modifications to units previously delivered. The warranty set forth above is the exclusive express warranty.

ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR USE ARE LIMITED IN DURATION TO ONE YEAR FROM THE DATE OF ORIGINAL PURCHASE. SPACE AGE ELECTRONICS SHALL NOT BE LIABLE FOR ANCILLARY, INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES OF ANY NATURE, INCLUDING, BUT NOT LIMITED TO LOSS OF REVENUES OR PROFIT RESULTING FROM THE USE OF THIS PRODUCT OR FROM ANY BREACH OF ANY WARRANTY APPLICABLE TO THIS PRODUCT.

AIR SWITCHES MODELS:
AS01,AS01H,AS01T,AS01HT,AS02,
AS02H,AS02T,AS02HT.

The Air Switches listed above have been designed and manufactured by Space Age Electronics Pty. Ltd. to provide remote operation of spa equipment using air impulses by the air button (not supplied) on the spa. NOTE : H models are the same as the other models but are rated at 15A.

OPERATING & INSTALLATION INSTRUCTIONS

Installation :-

- 1) The air switch should be mounted on a wall or other vertical surface adjacent to a power point .
- 2) The unit must be protected from rain and direct sunlight.
- 3) The 10A plug should be plugged into the adjacent power outlet and the appliance/s to be controlled should be plugged into the air switch outlets.
- 4) Power should be switched on.

Operation :-

- 1) The appliance/s should be in the OFF state.
- 2) Operation of the Air switch button's on the spa should cause the appliance to switch alternately ON and OFF.
- 3) When testing units with a clock the clock should be OFF at this time.

- 4) If the clock is now switched to ON the appliance plugged into the socket controlled by the clock should come ON.
- 5) When the clock is ON the air button will appear not to function, if it is inadvertently operated during the timed period then at the end of the timed period the system may remain ON.
- 6) It should be remembered that when either the clock or the air button are on the appliance will be ON and both clock AND air button must be OFF for the appliance to be OFF.

Specifications :-

INPUT : 240v 10A 50Hz (H models 15A)
MAX TOTAL LOAD : 10A (H models 15A)
IP23
TIME CLOCK : Operates one outlet. (Normally used to control a pump).

OTHER AIR SWITCH MODELS:-

AS01: has a single air switch and outlet
AS02: is the same AS01 but has a second air switch and outlet
AS02T: has a timer to control one outlet
AS02HT: Is a 15A version.
