

POOLFLOW LITHIUM PRO

For Crystal Clear Water

The smart way to sanitise your spa

PoolFlow Lithium Pro is the industry's first patented liquid lithium sanitiser - a powerful breakthrough formula that transforms spa maintenance from constant effort into effortless simplicity.

Unlike conventional sanitisers that degrade rapidly in heat, our patented formula actually thrives at high temperatures, maintaining optimum sanitising power where traditional chemicals fail.

AVAILABLE SIZES

POOLFLOW LITHIUM PRO

Superior Sanitation. Effortless Maintenance. Extended Water Life.

100 g/l Available Chlorine (Cl) present as Lithium Hypochlorite

Why Spa Owners Love PoolFlow Lithium Pro:

WATER THAT LOOKS AMAZING

- Dissolves instantly - No waiting for chemicals to work
- Crystal clear water - See the difference immediately
- Stays clear day after day - No more cloudy water issues

IT ACTUALLY WORKS

- Proven germ-fighting power - Keeps water safe at high temperatures
- Kills bacteria and viruses - Complete peace of mind
- Prevents biofilm - Eliminates slimy buildup in warm environments

SAVE TIME & MONEY

- Change water less often - Every 6-12 months instead of 3-6 months
- Protects equipment - Less corrosion, fewer costly repairs
- Fewer chemicals needed - Simpler maintenance routine

BETTER FOR YOUR FAMILY

- Kind to skin and eyes - No irritation or harsh by-products
- No chemical smell - Enjoy your spa without chlorine odour
- Great for sensitive skin - Safe for families with eczema and skin conditions

ENVIRONMENTALLY RESPONSIBLE

- Australian made and owned
- 50% less water wastage with fewer changes
- Lower chemical consumption

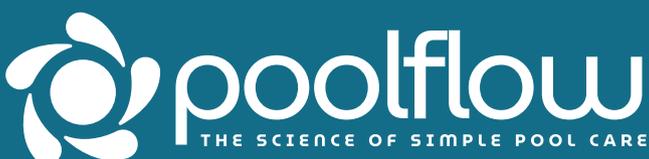

THE HEAT ADVANTAGE

- Most sanitisers break down faster as water gets hotter. Lithium Pro does the opposite, becoming more effective at high temperatures.
- Maintains stability - Doesn't degrade at 38-40°C like conventional sanitisers

It's Not About Using More Products - It's About Using the *Right* Products

PoolFlow Lithium Pro is the most significant advancement in spa water care technology in decades, earning official NSW Health approval as their preferred sanitising agent for commercial spas.
