Utilising the Compu-Chlor tried and tested technology formulated over 35 years of manufacturing and production, the new Compu-Chlor CC range boasts improvements in performance and usability, with low salinity technology, variable chlorine output and a new compact Cell Housing.

Model Number	Output (g/hour)	Pool Size (L)	
		Tropical Climate	Temperate Climate
<b>CC15</b>	15	35,000	60,000
<b>CC20</b>	20	50,000	80,000
<b>CC25</b>	25	60,000	100,000
<b>CC30</b>	30	80,000	150,000

# The CC~Series DIFFERENCE

- Low Salinity of 3000PPM
- Fully variable chlorine output control
- Updated modern aesthetic
- Simple to use analogue time clock, with battery back-up version optional
- Fully weather protected Power Module
- Automatic operation, even when the home owner is away
- Simple and easy installation into new and existing pools
- Analogue durability and robustness for long lasting performance
- Traditional "L" configuration Cell Housing provides multiple installation options
- Heavy duty electrolytic plate
- Designed and manufactured in Australia
- Four model sizes available to cover all residential applications
- 5 Year Warranty, 2 years full, 3 years pro-rata

Analogue Time Clock

External Reset Switch

Variable Output Dial to increase or decrease chlorine output

50mm Pipe Connections for Unrestricted Flow

Hardwired Cell Cable Provides Ideal Connection to Cell

## HOW DOES IT WORK?

Salt is added to the pool water at 0.3% salt content. This slightly salinated water then passes through an electrolytic cell and this produces chlorine gas, which prevents algae and purifies the pool water.

## THE SALT WATER CHLORINATION ADVANTAGE

- Irritation to the eyes and ears is eliminated
- Unpleasant taste and odour is greatly reduced
- No more expensive and hazardous liquid chlorine
- Fully automatic chlorination
- Sparkling clear pool water every day
- Suitable for all pool surfaces
